ACO Wexel

Push-fit floor drain

DoubleTree by Hilton, Perth, WA

DoubleTree by Hilton, an American hotel chain and part of Hilton Worldwide Holdings, has opened a new establishment in the heart of the vibrant precinct of Northbridge, Perth.

The hotel is the first DoubleTree property in the state and the first DoubleTree new-build in Australia. The hotel has 206 guest rooms, an executive lounge, over 300m² of event space, a gym and an outdoor pool and bar area.

Project Design Brief

In the kitchen and bar areas, designers wanted an effective and easy to maintain drainage system to eliminate slip hazards for kitchen and hospitality staff. The elimination of maintenance downtime was also a chief priority and therefore underground pipework needed protection from small food scraps, which could provide costly blockages.

ACO Solution

- **Wexel** 150x150 push-fit floor drains with strainer basket

Benefits

- Strainer basket traps food and facilitates cleaning
- Grates are hinged for easy and secure access
- Push-fit floor drains come complete with O-ring seals to provide a quick and watertight connection to both PVC and HDPE pipe

Other ACO Products Used

- Stainless drainage channels (ACO Stainless)
